Urban grade is only available for NX 350h and NX 350h AWD models. Premium, Premium Plus, F Sport, Takumi and F Sport Takumi grades are available for NX 350h, NX 350h AWD and NX 450h+ models.

F SPORT and F SPORT Takumi are available in AWD only, remaining 350h grades are available in both FWD and AWD.

TECHNICAL DATA		
ENGINE	NX 350h AWD (FWD)	NX 450h+ AWD
Capacity (cm ³)	2487	2487
Cylinders / Valves	L4 / 16	L4 / 16
Maximum power (DIN hp / kW @ rpm)	190 / 140 @ 6000	185 / 136 @ 6000
Maximum torque (Nm @ rpm)	239 @ 4300 - 4500	227 @ 3200 - 3700
ELECTRIC MOTOR		
Type	AC synchronous, permanent magnet	AC synchronous, permanent magnet
Maximum power (DIN hp) - front/rear	182 / 54 (182 / –)	182 / 54
Maximum power (kW) - front/rear	134 / 40 (134 / –)	134 / 40
Maximum torque (Nm) - front/rear	270 / 121 (270 / –)	270 / 121
TRANSMISSION		
Type	Electronic-Continuously Variable Transmission	Electronic-Continuously Variable Transmission
Drive	E-FOUR (Front-Wheel Drive)	E-FOUR
TOTAL SYSTEM OUTPUT ¹		
Total power (DIN hp / kW)	244 / 179	309 / 227
CHARGING		
Battery type	Lithium ion	Lithium ion
Battery capacity (kWh)	n/a	18.1
Maximum charging power AC ² (kW)	–	6.6
Charging time AC ³ (h : min)	–	from 2:30 to 9:00
PERFORMANCE		
Acceleration 0-60 mph	7.2 (8.2)	6
FUEL CONSUMPTION ⁴ (mpg)		
Combined	47 - 44.1 (49.5 - 47.8)	282.4 - 256.8
CO ₂ EMISSIONS ⁴ (g/km)		
Combined	145 - 135 (133 - 129)	26 - 22
Euro Class	EURO 6e	EURO 6e
EV RANGE ⁴ (miles)		
Combined	–	45.9 - 42.5
ELECTRIC CONSUMPTIONS ⁴ (kWh/100km)		
Combined	–	18.4 - 17.2
WEIGHTS (kg)		
Gross vehicle	2380 (2320)	2540
Kerb weight (min. - max.)	1790 - 1870 (1730 - 1810)	1990 - 2070
CAPACITIES ⁵		
Luggage volume – rear seats upright, loaded to luggage cover (l)	549 / 554	549 / 554
Fuel tank capacity (l)	55	55
Towing capacity max. unbroken / broken (kg)	500 / 1000	500 / 1000

¹ Combined engine and electric motor(s)

² For charging at 6.6 kW, an AC charger with a maximum power supply of 32 A or greater is required. When charging at an AC electrical socket with an AC charging cable, the maximum charging power will be lower, depending on the specifications of the power supply available. The charging current setting enables the user to select a maximum charge current available to prevent the breaker inside the house being tripped during charging.

³ Indicative charge time for comparison purposes only. Actual charging times may vary depending on various factors, including the age, type, condition and temperature of the charging unit and the battery, the starting charge and environmental conditions at the point of use. Charge times may be longer in colder weather and if battery temperature activates safeguarding technology. Charging time shown is the approximate time from when switching from EV mode to HV mode until fully charged.

⁴ The electric range, electric energy, fuel consumption and CO₂ values are measured in a controlled environment on a representative production model, in accordance with the requirements of the new WLTP European Regulation EC 2017/1151 and its applicable amendments. For each individual vehicle configuration, the final electric range, electric energy, fuel consumption and CO₂ values may be calculated based on the ordered optional equipment. The electric range, electric energy, fuel consumption and CO₂ values of your vehicle may vary from those measured or calculated values, as driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, load, number of passengers, etc.) have an influence on a car's electric range, electric energy, fuel consumption and CO₂ emissions. For more information regarding the new WLTP test method, please visit: www.lexus.eu/wltp#nedc

⁵ Luggage volume is calculated as per the VDA method. All figures quoted include the under-floor storage area in the luggage compartment. The first figure applies when equipped with a Tyre repair kit, the second figure applies for models with 20" alloy wheels and extended mobility tyres. The towing capacity differs by the equipment ordered, the higher value applies in certain markets only for models ordered with a towing hitch, the lower value applies as standard. Towing capacity does not include towbar or other towing equipment as standard.

Specifications shown in this brochure are based upon the latest available information at the time of printing. Further technical data, including any updates, can be found at www.lexus.eu.

TECHNICAL DATA

¹ The figure quoted applies with 20" alloy wheels. When specified with 18" alloy wheels, the height is 1660 on all grades except for Overtrail. The height on Overtrail grade is 1675.

² The figure quoted applies with standard roof. When equipped with panoramic glass sunroof, the headroom is 943.

³ The figure quoted applies with standard roof. When equipped with panoramic glass sunroof, the headroom is 949.

Please note: the dimensions illustrated / noted are measured in millimetres.

DISCOVER MORE ONLINE

Find out more about the NX 350h and NX 450h+ and even reserve your car online. Take time to explore which equipment grade best suits your lifestyle, learn about our world-class service and finance offerings and sign up to our regular newsletter. If you're interested in how the NX feels to drive, you can also book a test drive online with your local Lexus Retailer.

© 2025 Lexus UK reserves the right to alter any details of specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local conditions and requirements. Please enquire at your local Lexus Authorised Retailer of any such changes that might be required for your area.

Note: vehicles pictured and specifications detailed in this brochure may vary from models and equipment available in your area. Vehicle body colour might differ slightly from those shown in this brochure.

For further information please visit our website: www.lexus.co.uk

Taking care of the environment is a priority for Lexus. We take many measures to ensure that during the life cycles of our vehicles – from design, production, distribution, sales and service to end-of-life – their environmental impact is minimised. Your retailer will be happy to provide more information on end-of-life vehicle requirements.
