Eligibility Criteria and Exclusions

- 6. The Lexus Battery Care Warranty is a warranty which is applied to your vehicle (subject to these Terms) on completion of each scheduled service of your vehicle that includes an EV Traction Battery Health Check, by an Authorised Lexus Repairer in the UK, Channel Islands or Isle of Man (“Eligible Service”).
- 7. Where your vehicle undergoes an Eligible Service and your vehicle is, at that time, benefiting from a warranty described in the Service and Warranty Booklet (“Original Manufacturer’s Warranty”), the Lexus Battery Care Warranty will be automatically activated upon expiry of that Original Manufacturer’s Warranty.

By way of example only: if a vehicle that has a 12 month/10,000-mile service interval undergoes an Eligible Service at 5 years, 6 months after the date of first registration of the vehicle, a Lexus Battery Care Warranty will be applied to the vehicle at the time of that service. However, The Original Manufacturer’s Warranty will continue until the end of the 5-year term of the Original Manufacturer’s Warranty, after which the Lexus Battery Care Warranty will take effect.

- 8. Where your vehicle undergoes an Eligible Service after expiry of an Original Manufacturer’s Warranty, the Lexus Battery Care Warranty will be automatically activated from the date of completion of that Eligible Service.

By way of example only: if your vehicle has a 1 year/10,000-mile service interval and you have serviced your vehicle in line with the service interval for the first 7 years, but you don’t have your vehicle serviced in year 8 and, instead, your vehicle undergoes an Eligible Service at 8 years, 6 months after the date of its first registration, your vehicle will be without a warranty for 6 months – during the period between the Original Manufacturer’s Warranty expiring and the Lexus Battery Care Warranty starting.

- 9. For the avoidance of doubt, it is not mandatory to have your vehicle maintained and serviced by an Authorised Lexus Repairer, but only by doing so will a Lexus Battery Care Warranty be applied to your vehicle (subject to these Terms) and therefore only by doing so can you help ensure that your vehicle has warranty coverage at all times (subject to these Terms).
- 10. The Battery Care Warranty that will be applied to your vehicle on completion of an Eligible Service will last until:
 - a. 12 months from the date of completion of that Eligible Service;
 - b. Your vehicle covers 10,000 miles after the date of completion of that Eligible Service; or
 - c. Your vehicle undergoes another Eligible Service, at which point (subject to these Terms) a new Lexus Battery Care Warranty will be applied to your vehicle, whichever is the sooner.

- 11. If an Eligible Service shows that the EV Traction Battery has less than 70% capacity, Lexus Battery Care Warranty will not be applied to the vehicle.

- 12. Vehicles that are 10 years old (or more) or that have covered 1,000,000 (one million) miles

(whichever comes first) from the day the vehicle was first registered are not eligible for Lexus Battery Care Warranty.

13. Hybrid Electric Vehicles (HEVs) and Plug-in Hybrid Vehicles (PHEVs) are not eligible for Lexus Battery Care Warranty.
14. Lexus Battery Care Warranty only applies to EV Traction Batteries; 12v batteries are not covered by the Lexus Battery Care Warranty.
15. For those vehicles that meet the above eligibility criteria, the Lexus Battery Care Warranty will cover the cost of repair or replacement of EV Traction Batteries:
 - a. That have a functional defect (for example: failure of a component in the EV Traction Battery); or
 - b. That have less than 70% capacity.
16. **No** claims can be made under Lexus Battery Care Warranty for the refund of or compensation for:
 - a. Any indirect or direct losses, costs, damages or expenses, for example, loss of profit or income; transportation (including taxis); vehicle hire; towing; phone; accommodation; subsistence; rent; loss of any assets or valuables;

 - f. The use of unsuitable lubricants and fuels, which are not recommended under the manufacturer's guidelines;
 - g. Damage caused by entry of water, corrosion or contaminated fluids;
 - h. The use of an item which recognisably requires repair, unless the damage can be proved to be unconnected to the item requiring repair or the item had been at least temporarily repaired when the damage occurred;
 - i. The alteration of the original condition of the vehicle or vehicle design and/or the extension/addition of particular accessories which negatively influence the original technical specification or safety standard, or which are not of the same or better quality as the original fittings;
 - j. Other vehicle brands/models, except for Lexus;

- k. Vehicles not sold by:

 - n. Any pre-existing faults with your vehicle at the time of the Eligible Service;
 - o. Circumstances where the fault arising is due to maintenance and inspection work not having been carried out in accordance with maintenance and/or care specified or recommended by the manufacturer;
 - p. In the case of a vehicle purchased under the Lexus Approved Used Vehicle Programme and which received an Approved Used Vehicle Warranty, circumstances where the fault arising is due to maintenance and inspection work not having been carried out in accordance with maintenance and/or care specified or recommended by the manufacturer, after the date of such purchase;
